DETAILED ACTION

1. Upon further consideration the allowability of claim 3 is withdrawn.

Claim Rejections - 35 USC § 103

2. Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Bisconte Sconte De Saint Julien.

Bisconte in Figs. 3-4 discloses a liquid magnetizer having a spiral partitioning board 15 and an arrangement of multiple magnets 17 some of which have a south pole located adjacent to one side of the sink (Fig. 1). Bisconte discloses a liquid flowing counterclockwise rather than clockwise. It would have been an obvious matter of design choice to invert the sink so that the liquid flows in a clockwise direction, since applicant has not disclosed that it solves any stated problem or is for any particular credible purpose and it appears that the invention would perform equally well with flow in either direction.
